Mr. Paul R. Thompson  
Industrial Chemical Company  
1130 Ordendorf Parkway  
Springfield, Illinois 62704

EPA Region 5 Records Ctr.

335329

Dear Mr. Thompson:

The subject hazardous waste management facility was inspected by a representative of this Agency on August 25, 1989. The inspection revealed that the closure activity was completed in accordance with the approved closure plan dated September 30, 1987.

Certification that the two (2) hazardous waste container storage areas (S01) had been closed in accordance with the approved closure plan by the owner/operator, yourself, and an independent registered professional engineer, James Douglas Andrews P.E., of Illinois was received at this Agency July 12, 1989.

The Agency has determined that the closure of the two (2) hazardous waste container storage areas (S01) has apparently met the requirements of Interim Status Standards, 35 Ill. Admin. Code, Part 725 (40 CFR, Part 265).

This facility is no longer subject to the 35 IAC Subtitle G due to the completion of closure activities and closure of business operations.

If you have any questions, please contact Karen Nachtwey at 217/782-0892.

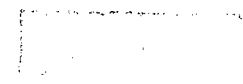

Very truly yours,

*Lawrence W. Eastep*
